### **About Manhattan Pharmaceuticals, Inc.**

Manhattan Pharmaceuticals, Inc. (<http://www.manhattanpharma.com/>), a development stage pharmaceutical company, acquires and develops proprietary prescription drugs for large, underserved patient populations. In view of the worldwide obesity epidemic, the Company is developing Oleoyl estrone, an orally administered novel therapeutic for weight loss. To meet the needs of other major, underserved medical markets while lowering development risks, Manhattan Pharmaceuticals also combines FDA-approved drugs with novel delivery technologies and formulations. The Company is developing a convenient, proprietary lingual spray formulation of propofol, the world's best-selling general anesthetic, as a sedative-hypnotic for use during diagnostic and therapeutic procedures.
