TG Therapeutics, Inc. to Present at the Ladenburg Thalmann 2016 Healthcare Conference

Presentation Scheduled for Tuesday September 27, 2016 at 11:30am ET

NEW YORK, Sept. 23, 2016 (GLOBE NEWSWIRE) -- TG Therapeutics, Inc. (Nasdaq: TGTX) today announced that Michael S. Weiss, the Company's Executive Chairman and Interim Chief Executive Officer, will present at the Ladenburg Thalmann 2016 Healthcare Conference being held at the Sofitel Hotel in New York, NY. The presentation is scheduled to take place on Tuesday September 27, 2016 at 11:30am ET. A live webcast of this presentation will be available on the Events page, located within the Investors & Media section, of the Company's website at www.tgtherapeutics.com.

ABOUT TG THERAPEUTICS, INC.

TG Therapeutics is a biopharmaceutical company focused on the acquisition, development and commercialization of novel treatments for B-cell malignancies and autoimmune diseases. Currently, the company is developing two therapies targeting hematological malignancies and autoimmune diseases. TG-1101 (ublituximab) is a novel, glycoengineered monoclonal antibody that targets a specific and unique epitope on the CD20 antigen found on mature B-lymphocytes. TG Therapeutics is also developing TGR-1202, an orally available PI3K delta inhibitor. The delta isoform of PI3K is strongly expressed in cells of hematopoietic origin and is believed to be important in the proliferation and survival of B-lymphocytes. Both TG-1101 and TGR-1202 are in clinical development for patients with hematologic malignancies, with TG-1101 recently entering clinical development for autoimmune disorders. The Company also has pre-clinical programs to develop IRAK4 inhibitors, BET inhibitors, and anti-PD-L1 and anti-GITR antibodies. TG Therapeutics is headquartered in New York City.
